Ohio crop summary	4
United States crop summary	5
Acreage, yield, and production, by counties	
Corn	6 - 7
All wheat	8 - 9
Oats	10 -11
Soybeans	12-13-14-15
All hay	16-17
Potatoes	18-19
Soybeans, Acreage utilization	15
Winter wheat, Abandonment of planted acres	9
Potatoes, December 15 prices in leading potato states	19
Acreage, yield, production, price, and value of principal crops	20-21-22
Prices received by Ohio farmers for principal crops	23-24-25
Maple products	25
Truck crops, commercial	26
Livestock	
Number on farms January 1, Ohio and United States	27
Number on farms January 1, by counties	
All cattle and calves	28
Milk cows and helpers	29
Hogs, including pigs	30
Stock sheep and lambs	31
Number and value on farms January 1	32
Number on farms January 1, by classes	33-34
Number of sows farrowed and pigs saved	33
Inventory numbers, production, disposition, and income	35-36-37
Bang's disease and tuberculin tests	38
Milk, Pounds produced per cow per day, by districts	38
Chickens	
Production, consumption, and sales	39
Number on farms January 1, by classes	39
Average number of laying hens and pullets, by months	40
Eggs	
Production, consumption, and sales	39
Monthly production	40
Average number produced per 100 hens in farm flocks, by districts ..	41
Turkeys, Number produced and sales	41
Prices received by Ohio farmers for livestock, by months	42
Prices received by Ohio farmers for livestock products, poultry, and poultry products, by months	43
Prices received by Ohio farmers as of December 15, by districts	44-45
Farm wage rates	46
Estimated gross cash farm income	47

EXPLANATIONS

This bulletin contains, in addition to other data, the current estimates of acreage, yield, and production of crops, by counties, livestock numbers on January 1, by counties, and prices for a five-year period as have the similar bulletins, previously published. The historical series of state data on crops and livestock has been reduced to a period of five years, but these data are available, in most cases, back to the year 1935 in Ohio Agricultural Experiment Station Bulletin 69; to the year 1924 for crop data and 1925 for livestock data in Bulletin 642; to the year 1919 for crop data and 1920 for livestock data in Bulletin 554; and to the year 1910 for crop data in Bulletin 460.

Estimates of acreage, yield per acre, total crop production, numbers of livestock on farms, and prices of crops and livestock products, unless otherwise stated, are based upon the data furnished by the reporters of the Federal-State Cooperative Crop and Livestock Reporting Service. In some instances the yield per acre for various crops is computed by dividing the production by the acreage harvested.

Monthly crop and livestock prices are those of the fifteenth of the month unless otherwise indicated. Prices used in computing the value of total production of crops are weighed average prices for the particular crop year.

ACKNOWLEDGMENTS

The authors are greatly indebted to the large groups of Ohio farmers and people closely connected with agriculture who so splendidly cooperated by furnishing information monthly or by supplying special information at various times during the year.

We are also very grateful to the postmasters who, through the rural mail carriers, distributed and collected the livestock and acreage survey cards, which furnish information regarding changes in crop acreage and numbers of livestock on farms from year to year.

OHIO CROP SUMMARY: Acreage, yield, and production, 1949 and 1950

Crop	Year	Acreage harvested	Yield per acre	Unit	Production
Corn	1949	3,617,000	56.0	Bu.	202,552,000
	1950	3,364,000	52.0	Bu.	174,928,000
All Wheat	1949	2,353,000	25.5	Bu.	60,002,000
	1950	2,118,000	22.0	Bu.	46,596,000
